Electrical Rating:

All models are rated max 460 V, 50/60 Hz, Max 7.5 KW.

Only those products bearing the UL Recognized Component Mark should be considered as being covered by UL's Recognition and Follow-Up Service.

The UL Recognized Component Mark generally consists of the manufacturer's identifier, catalog number, model number or other product designation as specified under "Marking" in particular Recognition as published in the appropriate UL Directory. As a supplementary means of identifying products that have been produced under UL's Component Recognition Program, the Recognized Component Mark  may be used in conjunction with the required Recognized Component Mark. The Recognized Component Mark is required when specified in the UL Directory preceding recognitions or under "Markings" for the individual recognitions.

Look for the UL Recognized Component Mark on the product
